

Within Me (Acoustic Recorded At the Mancow Show)

Lacuna Coil

Something about you that makes me feel bad
I wasn't there when a thin line destroyed your soul
I search every corner
There's nowhere to hide
How I feel ignorance
Sacrifice some days it's harder
Let's face it, it's all about me
Deeply into your own Deep within me
Life's crawling and wasting my days
Another night gone and I know there will be another way
I'm leading myself to be free
In this eternal goodbye Something about you will make me stronger
Now I'm aware when a man falls rebound, my fault
I search every corner
Just nowhere to hide
How I feel ignorance
Sacrifice some days it's harder
Let's face it, it's all about me
Deeply into your own Deep within me
Life's crawling and wasting my days
Another night gone and I know there will be another way
I'm leading myself to be free
In this eternal goodbye Here I wanna be
No more lies! Deep within me
Life's crawling and wasting my days
Another night gone and I know there will be another way
I'm leading myself to be free
In this eternal goodbye..
