

# Houston

## R.E.M.

If the storm doesn't kill me the government will  
I've gotta get that out of my head  
Its a new day today and the coffee is strong  
Ive finally got some rest So a mans put to task and challenges  
I was taught to hold my head high  
Collect what is mine  
Make the best of what today has Houston is filled with promise  
Laredo is a beautiful place  
And Galveston sings like that song that I loved  
Its meaning has not been erased And so there are claims forgiven  
And so there are things that are gone Houston is filled with promise  
Laredo is a beautiful place  
And Galveston sings like that song that I loved  
Its meaning has not been erased And some things, they fall to the wayside  
Their memory is yet to be still  
Belief has not filled me  
And so I am put to the test
