

# Undercover Freak

## OPM

Some like it hot, some like it cold  
Girl, I always knew, you were down to get bold  
But you say you would never do that  
I know that you like it like that, now  
And you know that I like it like that  
So tell me that you want it like that, girl Thought you was a square  
Couldn't care less about a blissful kiss or an illicit affair  
But you got that libido, incognito  
Keep it hidden nice stratego  
Don't tell my amigos Nobody knows, we're on the down low that's how it goes  
Getting down when the curtains are closed  
Sometimes it's rough, sometimes it's tough  
Just like velvet on your handcuffs  
And I can never, never, never ever get enough of you And only you can do what I like  
And only you can make me feel right  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak And I, I can see that look in your eyes  
Down to get wicked all night  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak Some like it hot, some like it cold  
Girl, I always knew, you were down to get bold  
But you say you would never do that  
I know that you like it like that, now  
And you know that I like it like that  
So tell me that you want it like that, girl Got me turned around girl, upside down  
I found the rumor round town  
Was you didn't get down  
My first impression was a girly invention  
Some pseudo pretention from the mistress of deception So I'm thinkin' about hangin' out  
And I'm never in doubt that the fire won't ever burn out  
We keep it right, we keep it tight  
Fuckin' under the moonlight, girl  
All night, all night, all night And only you can do what I like  
And only you can make me feel right  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak And I, I can see that look in your eyes  
Down to get wicked all night  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak Some like it hot, some like it cold

Girl, I always knew, you were down to get bold  
And you know that I like it like that  
So tell me that you want it like that, girl I know that you like it like that now  
And you know that I like like  
So tell me that you want it like that, girl I know that you like it like that now  
You know that I like like  
So tell me that you want it like that, girl  
Like it, like it, like it, like it, like like And only you can do what I like  
And only you can make me feel right  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak And I, I can see that look in your eyes  
Down to get wicked all night  
'Cause you're my little undercover freak  
A freak, freak, freak, freak, freak Some like it hot, some like it cold  
Some like it hot, some like it cold
