

Turn Around

Serial Joe

Fantasies once old and dead
Started runnin through your head
When I looked into your eyes and I said I could be your one true friend
Ill be there until the end
Just give a little and I wont let you down Time to turn it all around Its not alright to be lonely
Left to crumble through these lost intentions
When you're alone, you can hold me
And Ill keep you here
'Cause I can help you turn around Contemplating whats been said
Knew those hopes were all, but dead
So I turned to you and then I said
I could be your one true friend Broken dreams will never end
I can pick you up
And I wont let you down Time to turn it all around Its not alright to be lonely
Left to crumble through these lost intentions
When you're alone, you can hold me
And Ill keep you here
'Cause I can help you turn around I know I can help Its not alright to be lonely
Left to crumble through these lost intentions
When your alone you can hold me
And Ill keep you here
'Cause I can help you turn around
