

Ukiyo (feat. Pell) [Bonus Track]

Hermitude

Hermitude in this muff
And we talkin' about love (right, right)
Talkin' 'bout drugsRunning laps on that ass; how I made the track
Whole pole to stack, get the trimmers after that
After that, trying to find another but I couldn't match
Flowers sweet as nectar I want cavities forever
My love, my love
You my daily nine to five, well let's make that nine to nine
Cos im putting over time, my love
Let me prop you on my desk
I'll be catching pink slip because your pussy's too fly (fly)
I'm giving you all I got
It's not going to fight the feelin'
Whisper my way into
Deep and your soul is with mine (yeah)I want to tell my friends about you
Without outstanding relations there should come some expectations
Just know I'll never ask you for a day off
Ever since your love became my day job
I'm hoping that it pay off
I'm hoping that it pay off (pay off, pay off, pay off)Riding candy, sugar thighs
Taste as sweet as cherry pie
I don't need an alibi
Working for you every night
Riding candy, sugar thighs
Creamy as vanilla skies
I don't need an alibi
Working for you every nightI'm giving you all I got
It's not going to fight the feelin'
Whisper my way into
Deep and your soul is with mineWorkin' and workin', I'm stacking your shelves
I've been savin' and slavin', your bodies my wealth
Say it's just business, but can't mind my own
Cos if both of us quit, tell me what we've got left
Take you out to dinner, just fly with me
Putting overtime that's, fine with me
Lying in the arms, you don't even have to turn around
Baby just cry for meRiding candy, sugar thighs
Taste as sweet as cherry pie
I don't need an alibi

Working for you every night
Riding candy, sugar thighs
Creamy as vanilla skies
I don't need an alibi
Working for you every nightWhoo
