

# Europa

Holly Johnson

Europa - the time has come  
We just need a vision  
To try something new  
Throw out all divisions  
Now we talk to EuropaWarsaw city  
No more nations  
Continent  
UrbanisationEuropa - after the shame  
Things will never be the same  
The walls are down  
Our hope is new  
See the light come shining through  
Now we talk to EuropaSue all the wars  
Down endless corridors  
We must beware  
The double men who double dareThrough the machine age  
Over the moon  
Surviving the terrors  
Large as they loomOut of the trenches  
Out of the rain  
Out of the bunker  
Free of the shameEuropa - power in your hands  
We've lived through all the changes  
Now we've had enough  
Of being perfect strangers  
Now we talk to EuropaEuropa - after the rain  
Things will never be the same  
The walls are down  
Our hope is new  
See the light come shining through  
Now we talk to EuropaEuropa  
New vision  
Europa  
Your decision  
Europa  
No count over us  
Europa  
Rise above  
Now we talk to Europa
