

# No Secrets (Remastered)

**James Reyne**

I've seen all these faces  
Between the mountains & the beach  
Looking out for happiness  
Well it's out of reach  
There's a cars & women  
Running rich & fast  
Driving down the freeway  
This fun it won't lastBridge ~

Cigarette boys  
Like Evelyn Waugh  
No smoke no fire  
No good no moreChorus ~

No secrets  
On the streets of shame  
No worries  
It's the same old game  
Give me a little love  
Give me your name  
No secrets

On the streets of shameThinking you're a wild man  
With your uncombed hair  
You float on magic cushions  
Like you don't care  
Said the monkey to the walrus  
Have you dug the spill  
A real diamond earring

That you bought on Sugar HillBridgeChorusGonna climb a little mountain  
Gonna scoot the ridge  
Clamber up Kosciusko  
Gonna cross that bridge
