Tip Of The Iceberg

For Science

When you are the furthest from me
If only photo keeps me company
And all I have's a shred of hope
And thoughts till I see you again
All this time I'm waiting
Wondering when will I see you again?
When you are the furthest from me
If only photo keeps me company
And all I have's a shred of hope
And thoughts till I see you again
All this time I'm waiting
Wondering when will I see you again?
This is just the tip of the iceberg
No bone in my body tells me I deserve her
This is just the tip of the iceberg
No bone in my body tells me I deserve her
