

# Sperratus

## Barclay James Harvest

Look in my eyes  
See the light of the universe  
I'm man, born of God  
Not a clown in disguise My skin is bronze, my hair is gold  
The power within me lights the way  
To wealth and fame  
All in my name, the final goal Shout it, shout it, shout it out loud  
Sing it, sing it, sing to the crowd  
Call out, call out, call out from afar  
Make them, make them, make you superstar Look in my face, see the light  
Of a thousand stars shine bright  
In the night, as I step  
From the stage Don't burn your hands on my skin  
You can't touch what's deep within  
That's my soul  
Reaching my final goal Shout it, shout it, shout it out loud  
Sing it, sing it, sing to the crowd  
Call out, call out, call out from afar  
Make them, make them, make you superstar
