Long Summer Days

Emf

Long hot summer days, traveling out far
This driving music makes us feel more than we ever are
I'm trying hard to get away from you
Trying hard to get away from youLong hot summer days, traveling out far
This open window make us feel more than we ever are
I'm trying hard to get away from you
But sure enough I'm fallin' apartOut you go too far, stay where you are
You're riding high
But when you fall you're dead
You'll lose your heads
And when you fall you'll fall so far
Out of here, you don't know where you areI'm trying hard to get away from you
But sure enough I'm fallin' apart
