

# For Old Times Sake

## Doc Powell

Let's make love for old times sake

    let's set right an old mistake

Let's invite our hearts to break

    It's right tonight

But just for old time's sake

    Remember you as Mars

    And me as Venus

Strange to see the grey in your hair

And now feel a peace so deep between us

    And to realize that we still care

Let's make love for old times sake

    Let's set right an old mistake

Let's invite our hearts to break

    It's right tonight

    But just for old time's sake

I used to think we would wind up together

    Our destinies always entwined

Oh but your heart kept changing like the weather

    And you would up leaving me behind

Let's make love for old time's sake

    Let's set right an old mistake

Let's invite our heart's to break

    It's right tonight

    But just for old time's sake

    (repeat of chorus)
