

# Was It Worth It?

Keyshia Cole

Tell me was it worth it?  
Tell me was it worth it?  
Tell me was it worth it all? Tell me was it worth it?  
Tell me was it worth it?  
Tell me was it worth it all? Tell me was it worth it?  
Tell me was it worth it? Before you were no good you used to be so good  
And then you changed and flipped on me  
So tell me what's the reason, all this time you've been preachin'  
Actin' like you know everything Look into my eyes and tell me what you see  
Was what you got worth losin' me?  
Now all your lies has caught up with your game  
It's a different picture but in the same old frame Tell me was it worth it?  
Now that it's said and done  
Or did you find what you were lookin' for? Tell me was it worth it?  
Oh boy, that's all I want  
Is just tell me the truth and nothin' more Got me confused and think that I wanna be  
Back in your arms 'cause I closed that door  
Tell me was it worth it  
For you to make that change and play that game with me? I gave all I could give you, changed it all up for you  
But you didn't sacrifice for me  
So is it for the moment, are you really on it?  
Either way you ain't thinkin' 'bout me Look into my eyes and tell me do you see  
Can you see the pain that you caused on me?  
It's not the same, will never be that way again  
'Cause you can't take back those tears  
Please tell me Tell me was it worth it?  
Now that it's said and done  
Or did you find what you were lookin' for? Tell me was it worth it?  
Oh boy, that's all I want  
Is just tell me the truth and nothin' more So got me confused and think that I wanna be  
Back in your arms 'cause I closed that door  
Tell me was it worth it  
For you to make that change and play that game with me? Tell me was it worth it?  
Worth it, was it worth it?  
Worth it, oh, oh Tell me was it worth it?  
Worth it, was it worth it?  
Worth it, oh Tell me was it worth it?  
Now that it's said and done  
Or did you find what you were lookin' for? Tell me was it worth it?

Oh boy, that's all I want  
Is just tell me the truth and nothin' more  
Got me confused and think that I wanna be  
Back in your arms 'cause I closed that door  
Tell me was it worth it  
For you to make that change and play that game with me?  
Tell me was it worth it?  
Now that it's said and done  
Or did you find what you were lookin' for?  
Tell me was it worth it?  
Oh boy, that's all I want  
Is just tell me the truth and nothin' more
