## **Peace**

## Weezer

More and more, I can't say no
So afraid of letting go
If there's something I can grab
You can bet I'll pay the tabCounting all the flowers
Waste the precious hours
I need to find some peaceAll these problems on my mind
Make it hard for me to think
There is no way I can stop
My poor brain is gonna popAnd I don't have a purpose
Scattered on the surface
I need to find some peaceAnd all the broken tethers
We can bring together
I need to find some peace
I need to find some peace
