Ice Age

Joy Division

I've seen the real atrocities
Buried in the sand
Stockpiled safety for a few
While we stand holding handsI'm living in the ice age
I'm living in the ice age
Nothing will hold, nothing will fit
Into the cold, a smile on your lips
Living in the ice age
Living in the ice age
Living in the ice ageSearching for another way
Seen hide behind the door
We'll live in holes and disused shafts
Hopes for little moreI'm living in the ice age
I'm living in the ice age
Nothing will hold, nothing will fit
Into the cold, a smile on your lips
Living in the ice age
Living in the ice age
Living in the ice ageLiving in the ice age
Living in the ice age
Living in the ice age
Living in the ice age
