

It's All Over

The Everly Brothers

It's all over, didn't even cry
I just stop living when you said goodbye
It's all over, can't you feel a thing
I just stop living, couldn't stand the pain
There are no light leaves in September
Lips as fresh as spring
Love that warms like summer sun
Shouldn't die when winter comes
It's all over, didn't even cry
I just stop living when you said goodbye
It's all over, it's all over
