Everything That Makes Me Sick

The Almost

Be everything, be all
Be everythingCome down and make me see why I'll never be
As good as you and all your
Broken thoughts, your lengthy walks, your knowing what to say
And I'll be coming back around right before you, right before you
She told you so, no, I don't think soBe everything that makes you scared when you stand and be so aware
This is it you're good to make such an entrance
Do everything that makes you lie, it's only just a matter of time
Before you get down and outSo come down and make me, make me an accident
Make up some violence
This is no stage for your accidents
This is no stage for me to
Yeah, I told you so, yeah, I do think soBe everything that makes you scared when you stand and be so aware
This is it you're good to make such an entrance
Do everything that makes you lie, it's only just a matter of time
Before you get down and outI don't think we'll ever get this
No, I don'tBe everything that makes you scared when you stand and be so aware
This is it you're good to make such an entrance
Do everything that makes you lie, it's only just a matter of time
Before you get down and out
