

I Mean You

Hunter Hayes

I'm a fool, falling, saying crazy things
But I'm hoping and praying that you'll know what I mean yeah,
I wish I had the lines, but if you could read between,
Well then you know what you mean to me But when I say heaven I'll be laying by your side
And about forever I mean as long as you'll be mine
But when I say perfect, I mean every little thing that you do
Oh and when I say beautiful, wonderful, one too good to be true,
I mean you, I mean you When I say better, girl I mean, me since I found you when
And I say nothing, that's exactly what I wouldn't do
To keep you smiling, oh laughing, baby you would too
Oh, and you and me, looking back at you But when I say heaven I'll be laying by your side
And about forever I mean as long as you'll be mine
But when I say perfect, I mean every little thing that you do
Oh and when I say beautiful, wonderful, one too good to be true,
I mean you, I mean you You say hello while a angel sing
You say good night, I can't wait to dream
About tomorrow, everyday that follows
You say I miss you, I miss you more
When I say lost, that was me before, I met you but now that I met you Baby heaven is laying by your side and
forever,
Me as long as you'll be mine I say perfect, I mean every little thing that you do,
Oh and when I say beautiful, wonderful, one too good to be true,
I mean you
Oh and when I say beautiful, wonderful, one too good to be true,
I mean you, baby I mean you
Oh I mean you, oh baby you know, you know, you know I'm talking 'bout you
Oh I'm talking 'bout you
I mean you
