[music: furni 6/98]

[lyrics: dave rotten]beauty obsessionhorror to decay

she didn't want - time to pass

aesthetic surgery

the only way - to keep youth[chorus:]

deformed

human freak

monstrous

skinlessclinic was her home

the surgeon - her best friend

transforming body parts

no matter what - again and again[chorus:]

deformed

human freak

monstrous

skinlessbut her skin - was getting - emaciated

every time - a surgery - was done

she didn't know - her cells - couldn't resist

so many - transplants - from others' skinamorphous livid cheekbones

distorted burnt eyebrows

skinned bleeding bruised lips

crushed rotting tight nose

sunken scratched forehead

dislocated deformed jawher face was totally disfigured

beauty turned into rotting skin

her perdition was to be conceited

now she's got a horrid grotesque face[chorus:]

deformed

human freak

monstrous

skinless[chorus:]

deformed

human freak

monstrous

skinless
