

# Home Someday

**Donnie McClurkin**

just a little while just a little while to stay here yeah  
just a little while just a little while to wait to wait to wait. just a little while, little while neighbor... when i get  
through im gonna be home someday.. oh oh oh when i get though im gonna be home someday.

Just a little more just a little more struggle. in this low and sinful state... just a little more few more days of  
trouble when i get through im gonna be home someday x2.  
Let me tell you bout the gates of perl and the streets of gold in another world where we will never grow old.and  
the reason we srevent so stint fast stole, because when we get though we're gonna be home someday x2  
I can hardly wait hardly wait hardly wait, home someday.  
yea oh my oh my lord yea.

when we get through, gonna be home someday when we get through home someday  
many alot when then is gone on before, said is so bright and pan peace forever more. but my savior is waiting  
there and he the one i adore.

when we get through we're gonna be home someday x2  
just a little while just a little while long  
we gonna be home someday  
everybody say yes, yes! we're gonna be home someday  
yes im gonna be home someday x4
