No Slow Thinkers

The Grouch

Yeah, all you slow thinkers
Move to the right, signal with your blinkers
Move come on

You bring out the worst in me
I said you bring out the worst in me
Well now you bring out the worst in me
You bring out the worst

Now don't you hate it when other people bring you down?
Get you all depressed every time they come around
Shoot out your ideas like they're much greater but they aint
done shit when you talk to them later
Steal your concepts never return the favor
Everytime they do a little sumthin and its major, you're minor
They're hatin on your girlfriend
Just cuz shes finer then theirs
If they even have one
You run around, tryin to get your stuff done pre-sundown
They call you, you give em the rundown
They act like you're dissin
You start believing them
Sidetrack from the mission
Listen
I've put in work
And I've paid hella dues
I've been hella broke
But now I never choose to snooze
I bruise my brain
Thinkin up ways
I can make the most of my days

All my people are big risk takers
No time wasters
Nothing's left to lose
All slow thinkers
Signal with blinkers
There's no space left
If you're spaced out move

I said..
All my people are big risk takers
No time wasters
Nothings left to lose
All slow thinkers
Signal with blinkers
There's no space left
If you're spaced out move

You bring out the best in me
You bring out the best in me
Well now you bring out the best in me
I said you bring out the best

Now don't you love it when your friends get you thinkin?
Do something innovative never even thought of
Get you all inspired and fired up to live life
You tell em what they did was tight
You're fully motivated
You might have hesitated
Now you're on the move though
Without some of my friends I probably move too slow
If that aint cool so I need reinforcements
And to be around positivity makes more sense
Its intense
Tryin to top a legend
But I make due and get praise for my reppin
Then they taught me and the last is the past
That keeps me on pointe with my foot on the gas
You gotta give respect where its due and stay true
It's neither all about them nor all about you
Surround yourself with prosperous people
If you will try hard to be more than equal

All my people are big risk takers
No time wasters
Nothing's left to lose
All slow thinkers
Signal with blinkers
There's no space left
If you're spaced out move
I said..
All my people are big risk takers
No time wasters
Nothing's left to lose

All slow thinkers
Signal with blinkers
There's no space left
If you're spaced out move

Well if you're layin down with dogs then you're gettin up with fleas
Negativity stay away from me please
I earned my spot and I got plans to keep it
I work very hard for what I got that's the secret
Maybe I can be it I can damn sure try
No need for approval and no one to tell me why
I'm doin wrong man I'm just makin songs
When it's night it's on and to the day it's on too
Like I am to the next I wanna bless you
And stress through my writing
Reaching a goal is exciting
A challenge that's inviting
And sitting around on your ass is worse than biting
I like igniting thoughts within a stranger
Having them tell me I did the making another banger
Then catching another kid off his guard
Who didn't know my old shit was hard

All my people are big risk takers
No time wasters
Nothings left to lose all slow thinkers
Signal with blinkers
There's no space left
If your spaced out move
I said..
All my people are big risk takers
No time wasters
Nothings left to lose all slow thinkers
Signal with blinkers
There's no space left
If you're spaced out move
