

# Cold Case Love (Chopped & Screwed by Mike G)

## Rihanna

On my roof  
Dark and I'm burning a rose  
I don't need proof  
I'm torn apart and you know  
What you did to me was a crime  
Cold Case Love (love, love)  
And I let you reach me one more time but that's enough, oh Your love was breaking the law, but I needed a witness  
So wake me up when it's over it don't make any difference  
Will it ever be solved  
Or am I taking the fall  
Truth was there all along, tell me how did we miss it  
We opened up a cold case love  
And it got the best of us  
And now prints, pictures & white outlines  
Are all that's left at the scene of a crime of a  
Cold case love, oh-oh, oh-oh ohh Should've investigated  
But love blinded eyes couldn't see (no)  
And then I tried to cage it  
But your love ain't the kind you can keep  
Release me now cause I did my time  
Of this cold case love (love, love)  
My heart's no longer cold & confined  
I've had enough, uh oh ohhh Your love was breaking the law, but I needed a witness  
So wake me up when it's over it don't make any difference  
Will it ever be solved  
Or am I taking the fall (oh no)  
Truth was there all along, tell me how did we miss it  
We opened up a cold case love  
And it got the best of us  
And now prints, pictures & white outlines  
Are all that's left at the scene of a crime of a  
Cold case love, oh-oh, oh-oh ohh We lost our way  
Took this too far and I'll never find the pieces of my heart  
We've lost enough  
Looking for a truth  
That was here all along, ohh Cold case love  
And it got the best of us  
And now prints, pictures & white outlines

Are all that's left at the scene of a crime of a  
Cold case love we opened up a  
Cold case love  
And it got the best of us  
And now prints, pictures & white outlines  
Are all that's left at the scene of a crime of a  
Cold case love, love
