Let Me Help You Forget

Kitty Wells

(Jim Anglin)Let me help you forget one who forgot you
Let me make you realize your dreams can't come true
Don't cry over her she left you with the blues
Let me help you forget with the love that is true.I understand darling why you feel this way
Afraid to take a chance first love went astray
Let my arms erase memories that hurt you yet
Trust me darling let me help you forget.--- Instrumental ---I'll make you happy just forget the past
Stop brooding for false love it never does last
Just listen to your heart and I'll do the rest
Life can be beautiful let me help you forget.Let me help you forget one who forgot you
Let me make you realize your dreams can't come true
Don't cry over her she left you with the blues
Let me help you forget with the love that is true...
