

Cold Dark River

Minnie Driver

Sky's on fire, It's blazing up into the sun
Shouting red on everyone, but you're blue
Oh, I, Im better than I used to be
Finally got up off my knees, I can't save youDon't let it bring you downstream
You're drinking all of that cold dark river, yeah
Oh, love come down on me
Tell my heart to set me free
Oh, love come down on meCan't shake you, you're there in everything I know
You're staring out from my soul
In every song, in every song I sing
Mountains, mountains that I should have learned
I'll stand by and watch them burn with youDon't let it bring you downstream
You're choking on that cold dark river, yeah
Oh, love come down on me
Tell my heart to set me free
Oh, love come down on meDont let it bring you downstream
You're choking, choking on that cold black river, oh, yeah
Oh, love come down on me
Tell my heart to set me free
Oh, love come down on me
Tell my soul to set me freeTell my soul, tell my soul to set me free
Tell my heart, tell my heart its free
Tell my heart its free, yeah
Ive gotta set my soul, set my soul free
