

No Invitation (Single Version)

Peter and the Test Tube Babies

Heard there's a party in the town, so I've got me beer and Merrydown.
Got me bottles and me cans, gotta get in if I can. No invitation, but it don't stop me,
No invitation, gatecrash yer party,
No invitation, but it don't stop me. Though I don't know no-one here, i'll still take yer food and drugs and beer.
And as I don't live here I don't care, if I start to throw-up everywhere. Gonna screw a bird in yer bog, gonna be
sick as a dog.
Gonna crash out in yer bed 'cos I'm gonna be pissed outta me head.
