

We Rule the World, Motherfuckers

Combichrist

I just SOOO fucking hate when you put
content you don't have to get it indexed,
pretending that you have it just to get more hits, fuck you. I just So fucking hate when you put
content you don't have to get it indexed,
pretending that you have it just to get more hits, fuck you. I just So fucking hate when you put
content you don't have to get it indexed,
pretending that you have it just to get more hits, fuck you.
