Lonely Ol' Night

John Mellencamp

She calls me up and says baby it's a lonely ol' night
I don't know I'm just so scared and lonely all at the same timeNobody told us it was gonna work out this way
no, no, no, no, no
I guess they knew, we'd work it out in our own wayIt's a lonely ol' night
Can I put my arms around you?
It's a lonely ol' night
Custom made for two lonely people like me and youRadio playin' softly some singer's sang sad song
He's singin' about standing in the shadows of love I guess he feels awfully aloneShe says I know exactly what
he means yeah, yeah, yeah, yeah, yeah
And it's a sad, sad, sad, sad feelin' when you're livin' on those in-betweens but it's okayIt's a lonely ol' night
Can I put my arms around you?
It's a lonely ol' night
Custom made for two lonely people like me and youShe calls me baby, she calls everybody baby
It's a lonely ol' night but ain't they allIt's a lonely ol' night
Can I put my arms around you?
It's a lonely ol' night
Custom made for two lonely people like me and youIt's a lonely ol' night
Can I put my arms around you?
It's a lonely ol' night
Custom made for two lonely people like me and you
Yeah, like me and you
Yeah, like me and you
