In the Name of Blood

[Metalium](#)

[Theme: Nero / Roman Empire / Italy][Latin choir: Nero Augustus Germanikus]It was thirty seven,
You had first seen the light,
Hunger and Illness kept you
Awake at night,
Adopted by Claudius,
Who got poisoned so mean
By mothers hands
To keep the family clean[Nero's voice]
Heroes never gonna die
[Evil Inner voice]
In the name of blood
[peoples voice]
Rome burns, hear your servants cry
[servant's voice]
Evil violent heartBy seventeen years your moment has come,
Killed your creator with feelings so numb
This plan in your mind started to grow
To blame all Christians, why ? Nobody knows ![Nero's voice]
Heroes never gonna die
[Evil Inner voice]
In the name of blood
[peoples voice]
Rome burns, hear your servants cry
[servant's voice]
Evil violent heart[C-PART:]
Flame are as far as the eyes could see
The screams of children with pain in their eyes
Nothing could hide your lunacy
And your rotten, deadly lies[Nero's voice]
Heroes never gonna die
[Evil Inner voice]
In the name of blood
[peoples voice]
Rome burns, hear your servants cry
[servant's voice]
