

Fall For Me

Brutha

I've already got you where I want you
Cause I've got you wanting me
When I'm ready, I'll just push the button
Hittin' play will be so sweet
You think you're holding all the cards
But your house of cards is coming down
Fall for me, fall for me,
And you're gonna fall for me
Eventually just wait and see, baby
You're gonna fall for me
Yeah, oh yeah, oh oh
No hurry, have to keep you hanging
Even though I want you back
Boy trust me, it will all be worth it
When I make this tension last
It's already out of our hands
Like an hourglass sand
We're just a matter of time

Fall for me, fall for me,
And you're gonna fall for me
Eventually just wait and see, baby
You're gonna fall for me
Yeah
You don't know it now
But boy you're going down
You're going down
Fall for me, fall for me,
You're gonna fall for me
Eventually just wait and see, baby
You're gonna fall for me
Fall for me, fall for me,
You're gonna fall for me
Eventually just wait and see
You're gonna fall for me
Yeah, oh yeah, oh oh
Fall for me, fall for me,
You're gonna fall for me
