Snapshot

Springhouse

Here and there, everywhere
The places that I go people stop and they stare
I'm beautiful that I know
I am quite a sight to behold
Hey now, hey now, now
I want you to remember me being who I wanna be
Hey now, hey now, now
Turn it on then you?ll see everybody look at me
Snapshot
Take my picture snapshot
Let me show what I got
Red hot
Take my picture red hot
Take it over the top
Photograph, video
Catch me while you can 'cause I gotta go
Hollywood, sunset strip

Living in the spotlight can be such a trip
Hey now, hey now, now
Take it on my good side, don?t wanna be on my bad side
Hey now, hey now, now
I ain?t never been shy, ain?t got nothin? to hide
Snapshot
Take my picture snapshot
Let me show what I got
Red hot
Take my picture red hot
Take it over the top
Say baby, uh, you got some film in that camera
Or are you just happy to see me?
Hey now, hey now, now, click, click
Hey now, hey now, now, click, click
