

Claude Monet

Thirsty Merc

If I had to give your love a name,
I think I'd call it something close to a flame.
Because it burns me when I talk to you,
And you really like to cook me through. If I had to give your eyes a taste,
I think I'd kiss you up around your waist.
And I'd kiss you from the inside out,
'Cos you spin me like a roundabout. Well that's you that's me that's Claude Monet
I just wanna get you in my life someday
I know you'll be a shining star
There's something 'bout the way you are. If I had to give your love a time,
I think I'd call you at the hour of nine.
Because at nine the night is still ahead,
But it's late enough to go to bed. And if I had to give your love a feel,
I think I'd simply say it's real.
Because you're deeper than the
And I'm proud to be an honest boy. Well that's you that's me that's Claude Monet
I just wanna get you in my life someday.
I know you'll be a shining star
There's something 'bout the way you are. Well that's you that's me that's Claude Monet
I just wanna get you in my life someday.
I know you'll be a shining star
There's something 'bout the way you are. Colour, time
I just wanna get you in my arms.
Time, space
I just wanna get you in my arms. If I had to give you love away,
I think I'd give it to the milky way.
And if I had to get a one night stand,
I'd signal taxis with my left hand. If I had to give you love away,
I think I'd give it to the milky way.
And if I had to get a one night stand,
I'd signal taxis with my left hand.
My left hand. Well that's you that's me that's Claude Monet
I just wanna get you in my life someday.
I know you'll be a shining star
There's something 'bout the way you are. Well that's you that's me that's Claude Monet
I just wanna get you in my life someday.
I know you'll be a shining star
There's something 'bout the way you are. Well that's you, that's me, that's Claude Monet.
Well that's you, that's me.

There's something 'bout the way you are.
