

# Breakdown

## Akon

You found the the soujla  
But I'm a man in a piece  
I fight for your love  
They try to take it me from you  
Then protect your heart so you never be hurt again  
But it's a sacrifice cause I'm an a old fashion working man  
Which means I won't be home like who I used to  
On the phone like who I used to  
Won't be long for see you too  
Yeeh  
We live life with no fears  
And you never disappear, you showed me how much you care  
you was never insecure, I love the fact you let me live and you  
Then you help me down for years,  
The hardest part from here it's when you cry  
I'm not there to wipe your tears  
So baby don't breakdown, hold me now, I need your love too  
Make it back all, I don't know how I'll do with out you  
So baby don't breakdown over now, I need your love too  
Make it back all, I don't know how I'll do with out you  
With out you, I'll do with out you  
With out you, I'll do with out you  
With out you, I'll do with out you  
With out you, I'll do with out you  
Can't do with out your love, your love, your love  
Can't do with out your love  
I know you hear the rumors, I know you hear the lies  
I know you hear than I'm no different for all these others guys  
I wanna come home sooner  
To make you realize that life's just a context and you have been to take my price  
We live life with no fears  
And you never disappear, you showed me how much you care  
you was never insecure, I love the fact you let me live and you  
Then you help me down for years,  
The hardest part from here it's when you cry  
I'm not there to wipe your tears  
So baby don't breakdown, hold me now, I need your love too  
Make it back all, I don't know how I'll do with out you  
So baby don't breakdown over now, I need your love too

Make it back all, I don't know how I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

Can't do with out your love

Can't do with out your love

Can't do with out your love

You found the the soujla

But I'm a man in a piece

I fight for your love

They try to take it me from you

Then protect your heart so you never be hurt again

But it's a sacrifice cause I'm an a old fashion working man

Which means I won't be home like who I used to

On the phone like who I used to

Won't be long for see you too

Yeeh

We live life with no fears

And you never disappear, you showed me how much you care

you was never insecure, I love the fact you let me live and you

Then you help me down for years,

The hardest part from here it's when you cry

I'm not there to wipe your tears

So baby don't breakdown, hold me now, I need your love too

Make it back all, I don't know how I'll do with out you

So baby don't breakdown over now, I need your love too

Make it back all, I don't know how I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

With out you, I'll do with out you

Can't do with out your love, your love, your love

Can't do with out your love

I know you hear the rumors, I know you hear the lies

I know you hear than I'm no different for all these others guys

I wanna come home sooner

To make you realize that life's just a context and you have been to take my price

We live life with no fears

And you never disappear, you showed me how much you care

you was never insecure, I love the fact you let me live and you

Then you help me down for years,

The hardest part from here it's when you cry

I'm not there to wipe your tears

So baby don?t breakdown, hold me now, I need your love too  
Make it back all, I don?t know how I?ll do with out you  
So baby don?t breakdown over now, I need your love too  
Make it back all, I don?t know how I?ll do with out you  
With out you, I?ll do with out you  
With out you, I?ll do with out you  
With out you, I?ll do with out you  
With out you, I?ll do with out you  
Can?t do with out your love  
Can?t do with out your love  
Can?t do with out your love
