

Show You How a Gangsta Do

Snoop Dogg

(Snoop)

Gangsta, gangsta, gangsta
G'd up baby like the big drum beater
Blue khaki suit with the Converse sneakers
Braids to the side, holdin on the heater
Dancing with a freak, she got her ass on my peter
Hennessey, so I pour another liter
Roll with me baby I promise you'll kick your feet up
Help ya see-saw, but you know you need a
Nigga up in ya to flex and rebend ya
Cup ya like a glass from the bartender
I got a lot of love for ya, tell me where to send her
Do you remember the last time you made love?
Was the playa a square, or was cuz a thug?
It really ain't my bidness yo, I really wanna be up in this hoe
Damn, the music is loud in here
Come close, let me whisper a lil somethin in your ear, come here

(Chorus)

I got something to say to you, the way you move
It's like Chronic, cognac and cavy
And if you play it smooth, maybe later on I'll show you how a gangstas do
Fitted in the grey and blue stayin true
Like Cadillac's, Copen sacs and Khakis
Stacking up the revenue, and if you ready boo
I'll show you how a gangstas do(Snoop)
Yeah, it's the gangsta boogie, the gangsta hoodie
You wonder how gangsta could he
Baby baby, give me the goodies
In a white man's world, you give me the woody's
Cute face with a big ole booty, big ole tittie's
I meant to say tig ole bitties
Pardon me, I be riffin and spittin different lines
Just to read your panty lines and buy some time
To get you a radical, cause I think me and you both are compatible
Sympathetical Romatical, dramatical, I've been through a lot....My life's radical
I need you and I gotta know,
Yep, yep cause this is the way you gotta go
A nigga been cappin at you, rappin at you
I wanna invite you to the tabernacle(Chorus)

I got something to say to you, the way you move
It's like Chronic, cognac and cavy
And if you play it smooth, maybe later on I'll show you how a gangstas do
Fitted in the grey and blue stayin true
Like Cadillac's, Copen sacs and Khakis
Stacking up the revenue, and if you ready boo
I'll show you how a gangstas do(Snoop)
You can walk on the left on me
Baby girl you know you bring out the best of me
I don't know, just might be destiny
But I'm anxious to see how the rest will be
Love has a recipe, and this is just a test for me
To see it if I'm meant for you
You're sweeter than sweet ...you're just like juicy fruitLady you looking like a tasty piece of candy (Just like
Candy)

Let me get you in the mood, and get gangsta in the room
And we can stay a while and make sure you understand me
Stop playing girl, show me some love, yeah that's what's up (Let me holler at you come on)(Chorus)
I got something to say to you, the way you move
It's like Chronic, cognac and cavy
And if you play it smooth, maybe later on I'll show you how a gangstas do
Fitted in the grey and blue stayin true
Like Cadillac's, Copen sacs and Khakis
Stacking up the revenue, and if you ready boo
I'll show you how a gangstas do X 2
