Something Goes Wrong

Medicine

I could stay away so long
That you'd never find me
I could stay inside my house
And hope you'd never find meWhen something goes wrong
I hide it in my head
When something goes wrong
You won't find meIf you stay away so long
I am bound to forget you
If you stay inside your house
I won't darken your doorstepWhen something goes wrong
I hide it in my head
When something goes wrong
You won't find meI could stay away so long
That you'd never find me
I could stay inside my house
And hope you never find meWhen something goes wrong
I hide it in my head
When something goes wrong
You won't find meWhen something goes wrong
I try to hide it inside my head
When something goes wrong
