A Place In the Line (Album Version)

Jude Cole

I had a woman
And she had a child
It lasted one summer
'Till this young heart ran wildIt seems there is nothing
In this world that binds
When you're trying to find
A place in the lineI can remember
Back in high school days
Living for freedom
And not for the 'As'So I sat in the pool
Hall on graduation day
Hoping someday
I'd find my place in the lineA place in the line
A place in the lineI wouldn't worry
My mama would say
Your kind of troubles, son
They just go with the ageThose words of wisdom
Still ring in my ears
As I struggle to findMy place in the line
'Cause I'm still trying to find
My place in the lineA place in the line
Someday I'll find
A place in the lineA place in the line
A place in the line
A place in the line, oh yeah
