

# Count Me In

## Gary Lewis, The Playboys

Could there be a different ending to the same old story  
'Cause you're not the first to say, you're gonna be there for me  
I need to know what's in your heart, can you finish what you start

How can I be sure, I won't be sorry

If heartaches and tears and shadows of doubt

Are part of the deal, you can count me out

But if you're talkin' about a game I can win

You can count me in

When you tell me you're the one I've always needed

You don't know how much I'm wanting to believe it

But I've heard it all before, now I'm needing somethin' more

A promise is no good if you can't keep it

If heartaches and tears and shadows of doubt

Are part of the deal, you can count me out

But if you're talkin' about a game I can win

You can count me in

If heartaches and tears and shadows of doubt

Are part of the deal, you can count me out

But if you're talkin' about a game I can win

You can count me in

You can count me in
