

# In The Green Wild

[Julia Holter](#)

City shoes fun with no green for no valleys  
I never could for straight and that's not sure  
Someone with the thing you say,  
. not to falling to the feet.La darla da, I receive the news so small and try look in I'll understand  
I can't hear and I don't know, and the . so small, until I chase the dream.So gone and . and then make sense,  
.wow wow  
And the lake with just strange the woman's wow wow  
Wow wow, and the link with just strange woman wow wow  
And I'm too bored to understand, well good I'm done,  
After the wild with me  
In the green wild light I am gone,  
My extra shoulder's gone  
My shoes'  
And they walked over the sea  
There's a play for . they walking never know just keep on .  
In the green wild light I am gone,  
My extra shoulder's gone  
At the shoes may be have morse .  
And they walked to work the sea  
As the flavor to the sound of the rocking that no one ever know this people  
At the green wild I am gone by extra shoulders gone  
If the shoes may .  
And they walked to work the sea  
As the flavor to the sound of the rocking that no one ever know this people  
There's a humor in the way they walk through the flower walks  
That doesn't look for me,  
It was just stars it's grown, its love is emotionally  
Ah ah ah ah  
Ah ah ah ahThere's a humor in the way they walk through the flower walks  
The way they walk, they way they walk away
