

Kasparov's Revenge

Lo Fidelity Allstars

Scraping the skylines with hypnotic observations
Swooping and surfing over lyrical substations
Embrace the flame again and again
Like passion and pain hand in hand with each other
Sliding, deeper I'm gliding
Shooting
I am deeper than you
Bombs wired to my chest I'll lace the building with bugs
Cos you'll always be behind me slip-streaming my buzz
See me rocket off into the ozone layer
Spiralling off into the ether
Slip-streaming our buzz
Slip-streaming our buzz
Slip-streaming our buzz
Into the ether
Sliding, deeper I'm gliding
Shooting
I am deeper than you
Into the ether
