

# Hole in My Soul

## Apocalyptica

It's getting dark and I'm lost in the woods  
I'd find a way out if I knew where to look  
If I could, I'd rip this page out of my book  
I'm confused and misguided and my faith is beside me I've got a hole in my soul where you use to be  
There's a thorn in my heart and it's killing me  
I wish I could go back and do it all differently  
'Cause now there's a hole in my soul where you use to be A fire inside but my bloods turning cold  
I'm walking alone down this desolate road  
Yesterday feels like a life time ago  
The memories are fading, my dreams are all changing I've got a hole in my soul where you use to be  
There's a thorn in my heart and it's killing me  
I wish I could go back and do it all differently  
'Cause now there's a hole in my soul where you use to be There's a hole in my heart, in my life, in my way  
And it's filled with regret and all I did, to push you away  
If there's still a place in your life, in your heart for me  
I would do anything, so don't ask me to leave I've got a hole in my soul where you use to be  
You're the thorn in my heart and you're killing me  
I wish I could go back and do it all differently  
I wish that I'd treated you differently  
'Cause now there's a hole in my soul where you use to be
