Can You Hear Me

DJ Bobo

Can you hear me
I must have been blind to leave you this way
It's hard to say I miss you
I can't live without your love
Can you hear me can you hear me
I know you've got the key
With you I feel so strong
Can you hear me can you hear me
Your love can set me free
I know that I was wrong
Let us try again just one more time
Let the love we found be back cause your's mine
One more chance we're gonna taste it
Now or never no time to waste it
Hold me the moonlight is shining bright
Touch my body soft tonight and tight
Your love's so strong
I'm dreamin' of you all night long
Can you hear me can you hear me
I know you've got the key
With you I feel so strong
Can you hear me can you hear me
Your love can set me free
I know that I was wrong
What I'm gonna do
Can you guide me through
Oh can you hear me
Where are you
What I'm gonna do
Can you guide me through
Oh can you hear me
Where are you
Original you need like a melody
The harder I try the bigger is the tragedy
Heartbeat energy for now and eternaly
Take my dreams and be my destiny
I feel there is a vibration
You and me as one what a combination
Love is the promtantation

Can you hear me my imagination
Can you hear me can you hear me
I know you've got the key
With you I feel so strong
Can you hear me can you hear me
Your love can set me free
I know that I was wrong
Can you hear me can you hear me
I know you've got the key
With you I feel so strong
Can you hear me can you hear me
Your love can set me free
I know that I was wrong
What I'm gonna do
Can you guide me through
Oh can you hear me
Where are you
What I'm gonna do
Can you guide me through
Oh can you hear me
Where are you
Can you hear me can you hear me
(Oh can you hear me)
I know you've got the key
With you I feel so strong
(Can you hear me tonight)
Can you hear me can you hear me
(Oh can you hear me)
Your love can set me free
I know that I was wrong
(Can you hear me tonight)
