Mad Desire

Den Harrow

On the corner
Staring at the street again
Stormy weather
Like the clouds before the break to rain
Through my head
Images I've red
Here I am
Watching light reflecting in my faceOnly you can make me wonder
I don't want to cross and I remember
It's either now or never
We're made to be together
Let's make it last tonightMemories of mad desire
Hoping that this love will last forever
It's either now or never
We're made to stay together
Let's make it last tonightREFRAIN:
Mad desire
Burning through the night
Mad desire
Dancing in the nightTo the beat, to the beat, to the beat
To the beat, to the beat, to the beat
To the beat, to the beat, to the beatTried to call you
Phone was off the hook again
Passing hours
Staring through a cold and windy day
In my mind
Images I find
Here I am
Waiting for the moment you appearOnly you can make me wonder
I don't want to cross and I remember
It's either now or never
We're made to be together
Let's make it last tonightMemories of mad desire
Hoping that this love will last forever
It's either now or never
We're made to stay together
Let's make it last tonightMad desire
Burning through the night
Mad desire

Dancing in the nightTo the beat, to the beat, to the beat
To the beat, to the beat, to the beat
