Vengeance

Tragedy

You came for us at birth with your proven techniques for molding model citizens, forced us into compartments where we didn't fit inBrought us with a full schedule of television and revised history classes that had us believing this is "just the way it is"You came for us with grins and smiles,systematic persuasion and coercion that we might have become robotss if it weren't forOur undying hatred, our unyielding drive, for reprisal, for retribution, for retaliation, for revenge
