

Vengeance

Tragedy

You came for us at birth with your proven techniques for molding model citizens, forced us into compartments
where we didn't fit in Brought us with a full schedule of television and revised history classes that had us
believing this is "just the way it is" You came for us with grins and smiles, systematic persuasion and coercion
that we might have become robots if it weren't for Our undying hatred, our unyielding drive, for reprisal, for
retribution, for retaliation, for revenge
