

Run with Us

The Fooo Conspiracy

Wanna show you something new oh oh
Introduce you to my crew oh oh
Cause you're the kinda girl it aint easy to forget
Questions in my head girl this aint a Q and A
You're the one playing tricks in my head
FOOO TURN UP!

The party don't start till we turn up
So you gotta run run run run run with us
Got it all like we know whats up
Everybody run run run run run with us
You don't know what you started
My heart is skipping a beat
So come and get down with us tonight
Do you wanna run run run run run with us
Now my eyes are locked on you (yeah) oh oh (yeah)
What have you got me into oh oh oh oh
Girl you got me down every time that you're away (you're away)
Questions in my head and I don't know what to say (what to say)
I just can't get you out of my head
FOOO TURN UP!

The party don't start till we turn up
So you gotta run run run run run with us (woo)
Got it all like we know whats up
Everybody run run run run run with us (what)
You don't know what you started
My heart is skipping a beat
So come and get down with us tonight
Do you wanna run run run run run with us
Didn't know I could fall this hard
Tried to play it easy
But you see right through me
All around us are shiny cars
No I like it easy
Just bring the beat in
FOOO TURN UP!

The party don't start till we turn up
So you gotta run run run run run with us
Got it all like we know whats up
Everybody run run run run run with us (yeah)

You don't know what you started (started)
My heart is skipping a beat
So come and get down with us tonight
Do you wanna run run run run run with us
(Do you wanna run with us)
The party don't start till we turn up
So you gotta run run run run run with us (You gotta run with us)
Got it all like we know whats up
Everybody run run run run run with us (us)
You don't know what you started
My heart is skipping a beat
So come and get down with us tonight
Do you wanna run run run run run with us
