# Nothing Else Matters

## Apocalyptica

So close no matter how far
Couldn't be much more from the heart
Forever trusting who we are
'Cuz nothing else mattersNever opened myself this way
Life is ours, we do it our way
All these words I just don't say
'Cuz nothing else mattersNever cared for what they do, no
Never cared for what they know, no
But I knowSo close, no matter how far
Couldn't be much more from the heart
Forever trusting who we are
'Cuz nothing else mattersNever cared for what they do, no
Never cared for what they know, no
Never cared for what they do, no
But I knowTrust I seek but I find in you
Every day for us something new
Open mind for a different view
'Cuz nothing else matters, ohSo close, no matter how far
Couldn't be much more from the heart
Forever trusting who we are
'Cuz nothing else matters
'Cuz nothing else matters
