

# I Like Girls

## Alice Cooper

I bought a Porsche  
And I'm leavin' Grand Rapids  
Quit my job, quit my school  
Quit this place My mother cried, my father was fried  
Hey, I've got no time, man  
I wanna say goodbye to my babes  
I like girls I dumped on Sheila on Thursday  
I'll drop Melissa today  
I'll kiss some tears off of Donna  
Ask if she'll call on Shauna Amanda and Sandra and Kay  
I like girls, I love 'em to death  
Hey, Valentino, you goin' somewhere?  
You wouldn't sneak out on me, would you? What's that, a blond hair?  
He must visualize himself an Errol Flynn  
I see myself a suave, sophisticated lover  
I'll meet a rich hot old Hollywood dame You see, my ultimate goal  
Will be my life bein' told  
In a penthouse letter that I can frame  
And keep at home, I like girls I love 'em, oh, yeah, new luggage?  
Did you say you were going somewhere?  
Oh, just out for some fresh air  
Does she have a nice pair? He was swallowed alive by the freeway  
Turned into an ant on parade  
He bravely drove off that beast  
Aimed his car back to the east Why be a snack?  
At home a feast for the girls  
I like girls, I really like 'em  
Well, well, well, look who's back, run out of gas? Patty, I was just gonna call you  
Look, I left Donna and Shauna  
And Katy and Carrie  
Melissa and Denal just didn't have any use for 'em  
I just want you  
Really, no, really, honest  
Oink off
