

Resolve

Kaya Project

Can you feel the tension?
Have you heard the voices of the lost?
 Churning up the fire
 To reach the dark side of you
 When the walls decide to close in
 And the floor disappears beneath you
 Just hang on to our last words and
 Resolve, resolve
 Touch your hands to water
 Place them on the fire
 Have faith, the flame will lose it's strength
 Just touch your hands to water
 Hold your breath for one more second
 Soak the torch in kerosene
 And light the match and
 Watch as it all closes in
 Can you feel the tension
 Can you hear the voices of the lost?
 Just hang out to our last words and
 Resolve, resolve
 Our lives will hang on the words you have spoken
 And we will wait for our God to return
 Lift your hands to the heaven
 Let your hard heart be encased in flames
 Touch your hands to water
 Place them on the fire
 Have faith, the flame will lose it's strength
 Just touch your hands to water
 Our lives will hang on the words you have spoken
 And we will wait for our God to return
 Lift your hands to the heaven
 Let your hard heart be encased
