

I Crave

Xu Xu Fang

When I crave new sensation
There's only one to guide me
Cause I know shame
It's the reason why I crave
People
Conversation
The lonesome life's my way
And now you know the secret
Of one life in need of healing
A storm brewed on a seashore
The same place I left the feeling of evermore
And I know shame
It's the reason why I crave
People
Conversation
The lonesome life's my way
People
Expectation
For me you too
A few do get through
Who are you if not alone
And I know shame
It's the reason why I crave
People
Conversation
The lonesome life's my game
People
Expectation
To live a life this way
