

# Crazy

## Weaselhead

if I built a castle in the sand  
to open up your heart I would  
if I made a diamond on a band  
to open up your heart I would

I might be crazy but I would never know  
Iâ€™m watching all the clouds go by  
I might be crazy but who cares?  
if crazy makes me laugh I would

if I found a pebble on the beach  
and kept it out of reach I would  
if I left a message on the door  
a letter on the floor I would

I might be crazy but I would never know  
Iâ€™m watching all the clouds go by  
I might be crazy but who cares?  
if crazy makes me laugh I would

I might be crazy but I would never know  
Iâ€™m watching all the clouds go by  
I might be crazy but who cares?  
if crazy make me laugh I would

I might be crazy but who cares?  
(I might be crazy)  
if crazy makes me laugh I would

if crazy makes me laugh I would
