

Coming for You

The Cruel Sea

You should know that there is nothing
That I would never do for you
You should know I'll be there for you
Whenever you should want me to I'll be coming for you
If you're coming for me too There is nothing that could stop me from being
Exactly what you want me to be
I hope I'm there when you're being
What you really want to be I'll be coming for you
If your coming for me to
