Heart Of Darkness

OST

Last night I saw it there, shining in the dark again
The light that all men seem to fear
They say that sailors were drowning in the bay
And people kept away
Waiting for the riches that a wreck would bring
When the morning comes
And on and on that light returns again
To haunt the ones who would not hear the pain
Help me
I took the old path down
Climbing over rocks and stones
The place I knew when I was young
And in my fear I had to carry on
Where no one else had gone
Looking in a heart of darkness from above
To the man inside
I took my chance and set off for the light
And started on the journey of my life
And in the darkest hour, the light was calling me
Through the doorway to another world
And there below me, I saw all the days of my life
Till the moment I stood on the shore, world's away
This was my destiny, to be back here in another time
And all around me I saw the faces that I knew
Reaching out, there is nothing to fear
World's away, come with me
Last night I saw it there, shining in the dark again
The light that all men seem to fear
Come with me, come with me, come with me
